

**THE ORIGIN
OF A FISH
OF EXCELLENCE.**

Azorfisk

Portuguese company in Azores Islands & Mainland (Scanfisk group):

- » Respect of all International Laws and no IUU (Illegal fish);
- » Fish Quality and Freshness maintained across all the supply chain;
- » Fish Traceability is guaranteed. Working in the technology like Blockchain;
- » Traditional Boats, respecting the ocean (Pole & Line, Fishhook);
- » Our Ocean is considered one of the less polluted in the world;
- » Customer oriented with rapid deliveries.

AZORFISK is a SCANFISK company founded in 2015. Since its foundation in 1994, SCANFISK has acted as an interface between our suppliers and our customers, providing tailor-made solutions for their requirements. We are not generalists, we specialize in fish and create value for all the parts of the chain by increasing business opportunities. We operate from the world's main fishing grounds,

using a business model that is both profitable and sustainable over time. We are experts in fresh and frozen fish, from the source. We oversee the raw material from the source and we develop and commercialize ranges in accordance with each client's needs and market trends. These same principles and way of working are transmitted to AZORFISK, located in one of the best sources of fresh, quality fish.

Legend

Species:

- | | | | | |
